Profile

Dynamic and detail-oriented Frontend Developer with 2.3 years of hands-on experience. Demonstrated expertise in creating intuitive and user-friendly interfaces and UI/UX, enhancing user experience, and collaborating with cross-functional teams. Eager to learn and adapt to new technologies, with a strong aspiration to grow as a Full Stack Developer. Known for problem-solving skills, creativity, and a commitment to continuous improvement.

Skills

- **Frontend:** React Js, Next Js, React Native, Html, Css, Javascript, Typescript, Redux, Tailwind & Shadcn
- **Backend/Database:** Node Js, Express Js, MongoDB
- **Others:** Vscode, Git, GitHub, Figma, Cursor, Chatgpt
- **Soft Skills:** Attention to detail, Problem Solving, Teamwork, Communication, Time management

Professional Experience

Frontend Developer, ([Grandconnect.ai](#)) **United States - Remote** JAN 2025 - DEC 2025

- **improving user interaction by 20%** Built the web application from scratch using Next.js, shadcn/ui, and Storybook, establishing a scalable, component-driven frontend architecture with consistent design standards.
- Integrated secure authentication using Clerk, significantly improving user experience, performance, and application reliability.
- Collaborated closely with cross-functional teams to optimize frontend performance and architecture, while expanding into backend development with Node.js and MongoDB to support scalable and maintainable features.

Frontend Developer, ([Wezion](#)) **Bhilai, C.G.** JUN 2023 - AUG 2024

- **Improved Conversion Rates by 30%** Created dynamic and visually appealing landing pages, significantly boosting user engagement and driving higher conversion rates.
- **Increased User Engagement by 25%** Developed and maintained responsive web applications using React.js and Next.js, enhancing user experience and interaction across devices and browsers.
- **Enhanced Website Performance by 20%** Implemented responsive design principles and code optimization, optimized website loading speeds, ensuring seamless user experiences and improved performance metrics.

Education

BCA Computer Science [Hemchand Yadav Vishwavidyalaya](#) **Bhilai, Chhattisgarh** 2020-2023

Relevant Courses: Software and Hardware, Programming - 85.4%

Personal Projects

Loop - Music Streaming and Storing Platform, ([Loop](#)) [source code](#) 04/2024 - 06/2024

- Developed a feature-rich music platform using React, TypeScript, and Tailwind CSS, enabling users to listen to and upload music.
- Implemented JWT authentication on the backend with MongoDB, Express, and Node.js, enhancing security and user management.

Sinema - Movie Streaming ([Sinema](#)) [source code](#) 05/2024 - 7/2024

- Integrated TMDB API into a React and TypeScript application, providing extensive movie data and seamless streaming functionality.
- Utilized Shadcn for advanced UI components and industry trends, ensuring a responsive and visually appealing user experience.

Apple Watch Clone ([Apple Watch](#)) [source code](#) 12/2023 - 01/2024

- Designed an Apple Watch-inspired UI with a focus on clean layouts, responsiveness, and smooth user interactions using Next.js for performance and scalability.
- Built modern, reusable UI components with Tailwind CSS and added interactive, touch-friendly elements using Swiper.js to enhance the overall user experience.
